

Hello, Maple View families,

It's Principal Weis with a message of thanks and a few reminders.

We're grateful for everything that you're doing to help keep our students and staff members healthy and safe.

Health officials have emphasized that it's important to have our classroom windows and doors open whenever possible because this increases ventilation and reduces the risk of transmission of COVID-19. This has allowed us to avoid quarantine in a number of cases. Because our weather is changing often, we are encouraging everyone attending in person to wear layers.

Please partner with us by being thoughtful and considerate to our community and schools when completing the daily health screening. Students should remain at home and not attend school or activities when sick, even if the symptoms are mild. If you have any questions about symptoms or exposure, please contact our building nurse or your student's health care provider for assistance.

Lastly, I ask that you fill out the daily health screening as early as possible, as we are seeing high traffic on the Qualtrics system just before school starts.

Thank you!

Bill Weis
